

Your Touchstone Energy® Cooperative 

Application Form - Residential / Small Commercial Wind Rebate

Customer Name _____ Telephone _____

Service Address _____ City _____ Zip _____

Mailing Address _____ City _____ Zip _____

United Power Account Number _____ Customer e-mail _____

Equipment Details:

Manufacturer / Model # of Wind Generator _____

Total Name-Plate Capacity of system (DC rating) _____

Manufacturer / Model # of Inverter (if applicable) _____ Power Rating _____

Manufacturer / Model # of disconnect (if applicable) _____

Single phase system Y / N Three phase system Y / N Battery Back-up Y / N

When submitting this application, please provide an electrical one-line drawing of the proposed system and a check for \$ 100 to process the United Power Interconnection Agreement

Equipment Orientation

Tower Height _____ Vertical or Horizontal type wind generator _____

System Installer:

Name _____

Mailing Address _____ City _____ Zip _____

Contact Person _____ Telephone _____

Signature:

Customer has read the requirements associated with this program and makes application for the United Power - Residential / Small Commercial Wind Rebate Program .

Customer Signature: _____ Date: _____

Residential / Small Commercial Wind Rebate Requirements

The following criteria must be met before a customer can be considered for the United Power rebate program. Customers wishing to apply to the State of Colorado for additional wind rebates must submit a separate application and meet the specific requirements of the State program. Their information can be obtained at <http://www.colorado.gov/energy/> or contact Danielle Vaughan at the Governors Energy Office 303-866-2594 danielle.vaughan@state.co.us

- Only available to existing customers within the United Power service territory.
 - New construction and residential development properties are not eligible.
 - Program is not available to customers currently on the United Power Time-of-Day rates. The current metering device doesn't work well for this type of application.
 - Only one lifetime wind rebate per customer.
- Program will be available for new DC name-plate rated systems between .5 Kw – 25 Kw
- Program application must include a check for \$100 made out to United Power to complete the Engineering Study for the customers Interconnection Agreement.
- Customer must contract with an experienced installer of these types of systems. Experience is based on references from (3) completed systems.
- This must be new equipment, purchased and installed on the customers' site.
 - The inverter / automatic disconnect equipment must be UL 1741 approved.
- It is recommended that the wind system be installed in a minimum of a category 2 or a marginal wind area. A wind site assessment can be found for specific locations at <http://www.3tier.com/firstlook/> Although no specific requirement for wind performance is listed to receive this rebate, it is suggested that you contact United Power at 303-637-1347 to go over the conditions at your specific location
- Customer must obtain and provide copies of all permits and inspections
- Customer must sign a United Power Net-Metering / Interconnection Agreement
- Customer must document liability insurance at the site for a minimum of \$300,000
- Customer must sign over the Renewable Energy Credit (REC) for a period of 20 years.
- Customer must provide a copy of the invoice for the installation of the system

Residential / Small Commercial Wind Rebate Process

- **Application:** Customer has read the requirements for the United Power / Wind Program and submits a signed application with all associated information provided and a check for \$100
 - Rebate recipients will be selected on a first come – first served basis based on the date the original application having been received by United Power. Once the available money for this program is exhausted, no further rebates will be issued unless additional funds are allocated towards this program.
- **Review:** United Power will review the customers application for accuracy and whether this applicant is qualified for this rebate program.
 - This is a pre-approval process. A customer can make changes in equipment, orientation or installers during the process but must document and receive approval from United Power for any changes from the original application.
- **Acknowledgement:** After the review, the customer will receive from United Power a letter acknowledging receipt of the application.
 - **Approval:** Summarizes the system specifications and provides documentation of the estimated rebate. This rebate will be reserved for a period of 90 days from the date of the approval letter. At the end of 90 days an applicant can ask for an extension but must be able to document or demonstrate that construction of the project is in progress. United Power holds the right to deny or extend the original application. If the Applicant fails to meet this 90 day deadline or wishes to be removed from the process, United Power will open that rebate money to the next available recipient.
 - **Denial:** Customer will be informed that their application has been denied. The basis for that denial will be explained. The customer can make the necessary adjustments and reapply with a new signed application.
- **Completed System Installation:** Once the system has been installed, United Power will schedule with the customer a final on-site inspection to verify the equipment against the specifications from the original application.
- **Process Rebate:** All paperwork including copies of permits, inspections, insurance, interconnection agreements, REC contracts and the invoice for the purchase and installation of the equipment. At this point the rebate will be processed and mailed directly to the customer in a period of 2 – 3 weeks.

Residential / Small Commercial Wind Rebate Program

- **Only one rebate per customer.**
- **United Power will pay \$.50 per DC-rated watt up to a maximum of a 3 kw system or \$1,500.**
- **Customers wishing to apply to the State of Colorado for additional wind rebates must submit a separate application and meet the specific requirements of the State program. Their information can be obtained at <http://www.colorado.gov/energy/> or contact Danielle Vaughan at the Governors Energy Office 303-866-2594 danielle.vaughan@state.co.us**
- **The customer can install additional capacity up to the limits of our Net-Metering Tariff but will only receive rebates for the first 3 Kw.**

Return completed application and fees, if applicable, to:
