## Youth Opportunities

### Leadership Training for Local High School Students

Three local high school students traveled to Washington, D.C. in June where they represented United Power on the Electric Cooperative Youth Tour. The Youth Tour and upcoming Cooperative Youth Leadership Camp are opportunities for high school students to build relationships with other leaders among their peers and develop important leadership skills they can model in their communities and schools. It is also a great addition to any resume or college application.

### Electric Cooperative Youth Tour Washington, D.C. | June 17-23

The Electric Cooperative Youth Tour has a proud history dating back to the National

Rural Electric Cooperative Association’s (NRECA) annual meeting in 1957. The keynote speaker, Senate Majority Leader Lyndon B. Johnson, suggested sending youth to the nation’s capital to “see what the flag stands for and represents.”

During the summer Youth Tour, cooperatives from across the country send more than 1,300 students to Washington. The week-long trip includes meetings with local elected officials in Congress and tours of historical monuments around the capital. Students also learn the value of the cooperatives they represent. This year, United Power sponsored three ambitious and exemplary high school students to participate on the Youth Tour – **Zachary Lam**, Skyline High School; **Taryn Petruncola**, Erie High School; and **Arnav Sudheer**, Prospect Ridge Academy.

Before departing for Washington, students from Colorado and Wyoming toured the State Capitol in Denver, watched a high-voltage safety demonstration at United Power’s headquarters in Brighton, and heard presentations about cooperative career paths.

“This was a fantastic opportunity, and I am so grateful to United Power for providing it,” said Sydney Dawson, one of United Power’s representatives at the 2023 Youth Tour.

“Being able to see the capital and meet all my representatives in Congress was a surreal experience. I would highly recommend it to anyone and everyone.”

At the conclusion of Youth Tour, peers elect one student to represent their state on the Youth Leadership Council. The student selected as a delegate participates in the NRECA annual meeting the following March with other delegates from across the country. United Power Youth Tour representative Elizabeth Clement was selected as the Colorado delegate in 2022.

“I could not recommend this trip more because you get to see so many things in such a short amount of time and you learn so much,” Clement said. “I did not even realize how much I was learning until the last day. I grew as a person on this trip.”

### Youth Leadership Camp Steamboat Springs, CO | July 13-18

Students depart for the Cooperative Youth Leadership Camp in mid-July. While camp takes place in the mountains outside Steamboat Springs, it is not a camp in the traditional sense. There are cabins and catered meals instead of tents and campfires.

## A Message from United Power's President & CEO

**Mark A. Gabriel**  
President & Chief Executive Officer

### Have Feedback For Us?

Submit your questions, comments, concerns, or general feedback at [www.unitedpower.com/CEO](http://www.unitedpower.com/CEO).

### Our Cooperative Roadmap

*Our Cooperative Roadmap* contains the cooperative's long-term action plan and key priorities to maintain its strength and competitiveness in the evolving electric industry.

Read *Our Cooperative Roadmap* at [www.unitedpower.com/roadmap](http://www.unitedpower.com/roadmap).

I recently attended a conference for cooperative CEOs and board directors. The keynote speaker asked a rhetorical question of the audience: "Why are you here?" An admonition we are all familiar with, often seen on raffle tickets, followed the question: "Must be present to win."

Both the question and the advice resonated with me, so much so that I asked my senior staff that very question. We spent time talking about the importance of being present — in our communities and with our employees — especially given the monumental changes we are seeing in the electric industry, as well as the new day we are now operating under at United Power as an independent distribution cooperative.

People come to work at an electric cooperative for a variety of reasons. Most importantly, we come to make a difference for our friends, neighbors, businesses, and communities. Many United Power employees have decades of service; others, like myself, come after years of seeing different ways utilities provide electricity — the most critical commodity after air and water — to their members and customers. I truly believe the cooperative model is the best way to deliver this valuable resource. We are attracted to a place like United Power to bring critical change in an exciting and transformational time.

The same holds true for our Board of Directors, who come from all walks of life and different backgrounds, giving their time for the betterment of the communities we serve. Being on a board, especially one that has made some difficult and challenging decisions to ensure the continued viability of our cooperative for the future, is not easy. I am sure there are United Power Board members — and employees — who wrestle with the question posed by the speaker: "Why are you here?"

For me personally, I am here at United Power to help us build and prepare for the dynamic future ahead. It entails a transition to cleaner — and ultimately lower cost — generating resources. It is a future that will require deploying new and innovative technologies. It is a future that

required a change in power suppliers, a new way of doing business, and a significant investment in order to make way for the changing environment. We are on the cusp of massive amounts of electrification and growth, powered by artificial intelligence and coupled with more direct interaction with our members.

This is not change for the sake of change, and there is certainly a cost to moving to this new world. But, just as the founders of United Power (then called Union REA) decided 85 years ago, the future was worth the investment. Rate increases are not any easier now than they were then, but they are a necessary part of being prepared and moving the cooperative ahead.

So, why are we here? The team at United Power is here to win every day. We are present at community events, present in industry forums, and present in working to make sure legislation and regulation support the vision outlined in *Our Cooperative Roadmap*. Employees at United Power are present to ensure reliable electricity is available for our members 24/7/365, or as close to that goal as possible. These are not passive actions. By definition the actions we are taking ensure a continued, robust future for our growing membership base. These actions are to keep electricity flowing.

Being present to win means we will be able to stabilize power prices, take advantage of coming energy markets, escape the burden of coal, and deploy new technologies, like battery storage, in a hyper-localized fashion. Being present to win means we will be there for our members for the long term with electricity and services that support the economic growth and vitality of our communities. Being present means we are **HERE FOR GOOD**.

As always, please feel free to reach out with your questions, comments, or concerns. I am honored to work for United Power and serve our members. I enjoy hearing from you and appreciate your continued support.

# 2024 Youth Leadership Opportunities

Students representing co-ops in Colorado, Wyoming, Kansas, and Oklahoma spend a week managing their own cooperative, including the election of directors, to learn the value of the principles that guide co-op business practices and decisions.

Days are filled with cooperative-focused activities, leadership training seminars, and collaborative group projects. However, being a part of a cooperative is not all business. In between activities, campers enjoy some Colorado fun, like rafting down the Colorado River or exploring Fish Creek Falls in Steamboat Springs.

This year, three local students will represent United Power at the Youth Leadership Camp – **Johanni Delgado**, the Academy of Charters; **Amelia Lineberger**, Prairie View High School; and **Gisell Mora**, Eagle Ridge High School.

Applications for youth opportunities, including scholarships and representation at next year's Youth Tour or Youth Leadership Camp, will be available in early December. Follow us on social media for updates on all of our youth programs.

## Powering Your Night at the Fair

The Adams County Fair will be packed with family-friendly entertainment, and as the presenting sponsor, United Power is giving away ticket packages to some lucky members.

### July 31 - Aug. 4

Tickets for the various United Power Grandstand Events at the Adams County Fair are on sale now. Buy your tickets at [www.adamscountyfair.com](http://www.adamscountyfair.com).

Paid parking and shuttle rides are available. Fair admission is free.

#### Special Days:

Thursday, Aug. 1 — Senior Day  
Friday, Aug. 2 — Kids Day

Riverdale Regional Park  
9755 Henderson Road  
Brighton, CO 80601

### Prize Packages

#### Demolition Derby (x2)

Friday, Aug. 2 | 7 p.m.  
4 tickets  
2 unlimited carnival arm bands  
\$30 concessions gift card

#### NSPA Truck Pull

Saturday, Aug. 3 | 7 p.m.  
4 tickets  
2 unlimited carnival arm bands  
\$30 concessions gift card

#### Charreada

Sunday, Aug. 4 | 5 p.m.  
4 tickets  
2 unlimited carnival arm bands  
\$30 concessions gift card

### How to Enter:

Enter to win one of four prize packages (listed above) by completing an entry form at [www.unitedpower.com/fair-giveaway](http://www.unitedpower.com/fair-giveaway). Or enter by mail by sending a postcard with your name, address, and phone number to:

United Power  
Attn: Adams County Fair Ticket Package Giveaway  
500 Cooperative Way  
Brighton, CO 80603

Entries must be received by July 22, 2024 to be eligible. United Power is not responsible for lost or misdirected mail.

## RECIPES

### Peach Crisp

4 1/2 lbs ripe peaches  
1 1/4 cup light brown sugar  
3 Tbsp tapioca starch  
2 tsp vanilla paste or extract  
1 cup whole wheat flour  
10 Tbsp unsalted butter  
3/4 cup rolled oats  
1/2 cup pecans, toasted & chopped

**For the filling:** Score a small 'X' at the base of each peach and lower into a pot of boiling water. Boil peaches until skin begins to peel, about 1 minute. Transfer peaches to an ice bath. When cool enough to handle, peel peaches and slice into wedges. Whisk 3/4 cup brown sugar, tapioca starch, 1/2 tsp kosher salt, and vanilla in large bowl and add peaches. Toss to coat. Let stand 30 minutes.

**For the topping:** Pulse flour, 1/2 cup brown sugar, and 1/2 tsp kosher salt in food processor. Add oats and pecans. Pulse 2-3 times. Add butter and pulse until mixture resembles coarse meal.

Place peaches into 9x9" baking dish and sprinkle with topping. Bake at 350° until golden brown, about 1 hour and 15 minutes. Let cool and serve with ice cream (optional).

# Safe Tree Trimming

## Observe the “10-Foot Rule” to Safely Trim Trees Near Power Lines

Were you aware tree limbs may become a safety hazard when in contact with power lines? Did you know attempting to trim a tree in contact with a power line puts you in danger of electrocution? Have you ever been uncertain about when and where to trim your trees located near power lines?

As trees grow over the years, they may come in contact with power lines, creating confusion about responsibility and concern about member safety. United Power wants to make sure you know the answers to your questions so you can safely tackle your summer yard work.

For quick reference about who is responsible for maintaining trees near power lines, please check the “Who is Responsible?” sidebar (at right).

When you see a tree in the vicinity of a primary power line, immediately contact United Power. Avoid trimming when you encounter the following: tree limbs in direct contact with a power line, dead tree limbs hanging near power lines, or tree limbs growing toward power lines.

Observe the “10-Foot Rule” to safely trim trees on your property located near power lines. This means anything inside that radius may put you at risk. United Power will disconnect secondary lines when notified in advance of any tree trimming activity for your safety and at no cost to the member. Remember to trim only from a steady, level surface, removing small, easy to manage sections. If this is not possible, contact a professional tree trimmer. Large trees or branch sections may fall unexpectedly and risk taking down power lines and causing potential injury.

When in doubt about safety or responsibility, please contact United Power at 303-637-1300. We will send out a representative or one of our tree contractors to assess the situation and keep you safe.

## Who is Responsible?

United Power has an aggressive tree trimming program to help reduce the number of tree-related outages. However, in some cases, the homeowner may be responsible for keeping a line to their home clear. Here is how it works:

- **United Power is responsible for trimming around primary lines.** These are lines running from pole to pole. United Power maintains these lines because they are higher voltage and require special handling from a qualified tree trimming crew.
- **Members are responsible for obstructions in secondary lines.** These are typically single lines stretching from our pole to a member's home — often seen in backyards, crossing from the main electric line to the home.

## READER REWARDS

ISSUE 5  
2024

Three Winners Every Month!  
1<sup>st</sup> place: \$100 Bill Credit  
2<sup>nd</sup> place: \$50 Bill Credit (two winners)

### Submit Reader Rewards Online

Visit [www.unitedpower.com](http://www.unitedpower.com) and click on 'News & Community' to enter Reader Rewards online. Answer the question below with your online entry:

### How much in scholarships did United Power award?

By submitting this entry, I agree to allow United Power to publish my name in subsequent issues of United Newsline if I am selected as a winner. For complete contest rules, visit [www.unitedpower.com/newsline](http://www.unitedpower.com/newsline).

## UNITED POWER PRIDE

Katherine and Alan Boldt of Erie recalled their appreciation for United Power during their trip to Ecuador, where they fished for piranha in the Amazon. Colorado is also grateful it does not have flesh-eating fish.

## United Power Pride Photos

Snap a photo with the United Newsline and you'll receive a \$100 bill credit if we print it. Submit your photo along with your name, address, email, and a description of the photo online at [www.unitedpower.com/unitedpowerpride](http://www.unitedpower.com/unitedpowerpride).

# 2024 Scholarship Recipients

United Power proudly announces the 2024 scholarship recipients. Seventeen scholarships were granted, totaling more than \$30,000. Scholarships are granted each year to outstanding students served by the cooperative. The United Power Scholarship Committee awards scholarships based on grades, test scores, extracurricular participation, community involvement, and an essay. Applications are made available at the end of each year. **Visit [www.unitedpower.com](http://www.unitedpower.com) for more information.**

**Lucas Burela**  
**United Power Colorado College Scholar, \$2,000**

Lucas Burela, a Brighton High School graduate, wants to serve and protect the country as a US Navy officer and aviator after completing his degree in mechanical engineering at the Colorado School of Mines. While in college, Lucas will also attend the Navy's Officer Candidate School. He graduated Summa Cum Laude in May and is a member of the National Honor Society.

**Rachael Schmidt**  
**United Power Colorado College Scholar, \$2,000**

Frederick High School graduate Rachael Schmidt will attend Colorado State University in the fall to study environmental engineering. Her career goal is to help engineer environmentally and economically friendly methods to generate clean energy and enhance accessibility to safe water. Rachael is a member of the National Honor Society, was in the marching band, and played on the volleyball and tennis teams.

**Skylar Whalen**  
**United Power Youth Leadership, \$1,500**

Skylar Whalen will attend Dordt University in Iowa after graduating from Mead High School in May. She has committed to play softball and will enroll in the pre-vet program as she continues her academic pursuits toward becoming a wildlife veterinarian and agricultural missionary. Skylar actively serves in her local church, is a member of the National Honor Society, and wrote for the school newspaper.

**Giselle Sixtos**  
**Lois Lesser Education, \$1,000**

Fort Lupton High School graduate Giselle Sixtos will be a first-generation college student when she attends Colorado State University in the fall. She will pursue a degree in early childhood education, which she calls "the career of her dreams." Giselle wants to help mentor young students in the early stages of their lives and instill a love for education through her role as a teacher.

**Alanna Snyder**  
**Bill Berens Memorial, \$1,000**

Alanna Snyder will study mechanical engineering at the University of Nebraska after graduating from Horizon High School. Nebraska's program provides opportunities to study alongside biomechanical engineers and gain valuable experience toward her long-term career goal. Alanna wants to design workout equipment to facilitate development of young athletes while also preventing injury.

**Harley Baas**  
**United Power Community College, \$1,000**

Harley Baas will begin her postsecondary career at Northeastern Junior College in the fall. She will major in criminal justice and ag business to explore career opportunities in fields she is passionate about. Obtaining degrees in both fields will provide multiple career opportunities, allowing her to ultimately pursue what best suits her, while also allowing her to remain active with horses and rodeos.

## United Power Bright Futures Scholarships – \$2,000

**Owen Woodford, Brighton High School**

Owen is planning to pursue a career in executive financial management. He was exposed to the financial world through his father, who works as an investment advisor. Owen also has an interest in financial literacy for lower-income families.

**Paige Gibbs, Fort Lupton High School**

Paige will study journalism at the University of Denver in the fall and plans to pursue a career in investigative journalism. She has been involved in student government, varsity tennis, and drama.

**Cody Bydalek, Weld Central High School**

Cody has been around petroleum engineering for much of his life. He will attend Montana Tech in the fall to study engineering and follow in the career. Cody served as a Future Farmers of America Chapter Sentinel this year.

**Sydney Dawson, Eagle Ridge Academy**

Sydney plans to pursue law school after studying political science at Wheaton College in Illinois. She wants her career in law to improve the lives of others. Sydney has more than 2,000 hours of service in her church and was on the student council.

**Josh Goodrich, Mead High School**

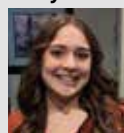

Josh is studying computer science to become a programmer and make long-lasting contributions to the industry. He wants to learn programming languages and patent new approaches to applications to expand his career potential.

**Colt Lanaghen, Mountain Territory**

Colt had more than 100 internship hours in athletic training during his high school career. He will pursue a degree in kinesiology and exercise science at Oregon State University in the fall and plans to attain his doctorate in physical therapy.

**Devyn Nabarrete, Erie High School**

Devyn has been studying medical and science classes in high school to prepare her for a career after college as a traveling nurse. She has also taken opportunities to volunteer with stadium medical personnel to gain hands-on experience.

**Paige Walker, Prairie View High School**

Paige is studying mechanical engineering at the University of Colorado in Boulder in the fall. Her passion for engineering and innovative technology began early in high school when she wrote a paper on the future of work automation.

**Elizabeth Clement, At-Large Selection**

Elizabeth has a longtime passion for the arts. She will study music business and administration in the fall and plans to continue playing an instrument in local groups and working as a stage manager to remain active in the arts.

**Nicholas Aasmundstad-Williams, Frederick HS**

Nicholas has plans to pursue civic service as an elected official and would like to start a nonprofit aimed at mentoring young men growing up without a father. He will study international business and foreign affairs at Loyola University in Chicago.

**Joaquin Rodriguez, Riverdale Ridge High School**

Joaquin will study applied mathematics and statistics at the Colorado School of Mines, with an interest in mechanical engineering and computer science. These will prepare him for a career in sports, entertainment, or healthcare logistics.

**Liliana Ritter, Technical or Vocational Scholarship**

Liliana, a Prairie View High School graduate, plans to attend Elite Aesthetics Academy to obtain her esthetician license. Her goal is to open her own business and help other people feel confident in themselves. Liliana is a member of the National Honor Society.

# Summer Heat is Here

## How to Control Your Usage and Keep Summer Bills Manageable

Colorado could experience an exceptionally hot summer this year. Scorching heat outside could have your air conditioner working overtime to keep you comfortable inside your home.

Your home's largest energy-user and most demand-intensive appliance is your air conditioner, accounting for more than 15% of your total annual energy use. This means that when you reach for your thermostat there will be a corresponding rise in your energy bill to accommodate the increased use. Practicing energy saving behaviors can keep you cool and also keep your costs lower. Here are some tips to help you save energy and money:

- **Turn up the A/C a few degrees.** A couple degrees can result in noticeable savings without making you uncomfortable.
- **Pair A/C with a fan.** Fans do not actually cool the air in your home. Instead, they displace warmer air and create a "wind chill" effect making you feel cooler.

Remember to turn fans off in empty rooms to save even more.

- **Install a smart thermostat.** Smart thermostats can learn your routines and be adjusted remotely to save energy. This makes it easier to preheat and precool your home while you are away so it is comfortable when you return without using excessive energy. Members can also enroll in Smart Rewards to earn an additional \$25 each cooling season, and may qualify for rebates on new Honeywell smart thermostat purchases. Learn more at [www.unitedpower.com/smart-rewards](http://www.unitedpower.com/smart-rewards).
- **Avoid Appliance Stacking.** Using multiple major appliances at once, such as cooking while doing laundry, can drive up demand costs. Spread the use of your appliances over time to limit demand charges. More information about managing your demand can be found at [www.unitedpower.com/demand](http://www.unitedpower.com/demand).

Additional tips to improve your energy efficiency this summer are available at [www.unitedpower.com/energy-tips](http://www.unitedpower.com/energy-tips).

## SOLAR MYTHS

United Power is a strong supporter of our members who choose solar, so we wanted to dispel some common myths regarding rooftop solar.

**DID YOU KNOW?**

### MYTH: UNITED POWER SELLS SOLAR

**FACT:** United Power does NOT have any contracts to work with rooftop solar installers, and we do NOT sell solar products.

### MYTH: THE LAW REQUIRES SOLAR

**FACT:** You do not have to own solar in Colorado. There are no laws requiring that residential members install solar panels.

### MYTH: NO MORE ELECTRIC BILL

**FACT:** You will still receive a bill for the electricity you consume when the sun isn't shining and your home is utilizing services from the grid.

Visit our website for resources to help you:

- Decide if solar is right for you,
- Choose a reputable contractor, and
- Get the most out of your solar investment.

[www.unitedpower.com/going-solar](http://www.unitedpower.com/going-solar)

## United Power Communications Team Receives Four 2024 Spotlight on Excellence Awards

Effective communication and engagement with United Power members is one of the four pillars of *Our Cooperative Roadmap*. The communications team at the co-op dedicates its resources to ensure it reaches as many members as possible.

The National Rural Electric Cooperative Association annually recognizes the best and most innovative communications programs through its Spotlight on Excellence awards. The United Power communications team received four Spotlight awards this year:

- SILVER:** Best Impact Report  
"Social Responsibility Report"
- SILVER:** Best Short-Form Video  
"Golden Aluminum"
- SILVER:** Best Special Publication  
"Green Box" safety brochure
- SILVER:** Best Short-Form Video  
"Celebrating 10,000 Rooftop Solar Installations"

## Summer Event Calendar

**July 12-14**

**Erie Balloon Festival**

County Road 5 & Colliers Parkway, Erie

**July 17-20**

**Chainsaws & Chuckwagons**

Centennial Park  
630 Eighth St., Frederick

**July 19-21**

**Gilpin County Fair**

Allen Memorial Fairgrounds  
250 Norton Drive, Black Hawk

**July 31 - Aug. 4**

**Adams County Fair**

Riverdale Regional Park  
9755 Henderson Road, Brighton

**Aug. 3**

**Dacono Spirits & Music Festival**

Centennial Field  
123 Forrest St., Dacono

**Aug. 10**

**Coal Creek Parks & Rec Mountain Fest**

Coal Creek Canyon Improvement Assoc.  
31528 CO-72, Golden

**Sept. 7**

**Trapper Days**

Denver St., Fort Lupton

**Sept. 21**

**Miners Day**

Centennial Park  
630 Eighth St., Frederick

## Member Exclusive Discount Save at Colorado National Speedway

United Power has partnered with the Colorado National Speedway to offer members the exclusive opportunity to experience NASCAR racing at a discounted rate during the 2024 season.

Colorado National Speedway is the state's premier NASCAR track, centrally located in Carbon Valley just off Interstate 25 between exits 232 & 235.

**What:** United Power members save \$5 on any adult admission with this coupon.

**Where:** Colorado National Speedway  
4281 Speedway Blvd., Dacono

**When:** July 13  
Aug. 3 & 24  
Sept. 14
