## Residential, Irrigation Rates to See Small Increase

### New Rates Effective January 1, 2020

## IMPORTANT DATES

<b>DECEMBER</b> 25	<b>Christmas Holiday</b> Offices Closed
<b>JANUARY</b> 1	<b>New Year's Day Holiday</b> Offices Closed
<b>JANUARY</b> 19, 31	<b>Youth Applications Due</b> Details on pg. 7
<b>APRIL 15,</b> 2020	<b>Annual Meeting &amp; Director Election</b>

The United Power board of directors proposed a modest increase in residential rates at their November 8<sup>th</sup> regulatory meeting. The rate increase will vary from 1.5–2% for residential members. Members on the standard residential rate will see a 1.5% rate increase beginning with their January 1<sup>st</sup> usage, which amounts to an average increase of \$1.58 per month. Members on the residential time-of-day rate and irrigation rate will see a 2% increase – an average monthly increase of \$3.23 per month.

An additional time-of-day rate was added in response to concerns raised by members utilizing the time-of-day rate. The additional time-of-day rate gives members who utilize

specialized equipment and shift their consumption to off-peak periods another rate option. *See all 2020 residential rates on page 6.*

“As we move forward with the rate changes, it’s important that we listen to our members, and our newest rate is a response to their concerns,” stated Dean Hubbuck, Director of Power Supply and Rates. “The new rates should have a minimal impact on members, and we now have several rates that members can consider when determining the best rate for their lifestyle.”

Last year, United Power instituted a new rate structure that allowed the cooperative to more fairly bill members for not only the power they use, but also for their impact on the electrical system delivering power. The new rate structure charges for energy and demand, breaking apart two costs that had been previously blended together. The new structure even allows members to have more control over the components of their bill that raise their costs. For example, in the residential rate, the demand charge increased by 50¢ per kW, while the energy charge drops from 10.15¢ per kWh to 9.95¢ per kWh.

“We understand that everyone has a different way they use power in their home, and by

expanding our rate offerings, members can select a rate that best fits their usage patterns,” stated Hubbuck.

In addition to the changes to the residential rates, the board proposed a couple additional changes. Irrigation rates will see a 2% monthly increase for 2020 – an increase of about \$1.79 per month. Small and large commercial customers and large industrial primary customers will see an overall 2% monthly decrease in 2020.

“The small reduction for commercial customers was warranted according to our most recent cost-of-service study,” stated Hubbuck. “We will be conducting another full study in 2020, and that will help us continue to refine the rates we charge members in different rate classes.”

The new rates will go into effect for usage beginning January 1, 2020, so members will not see the increase on their bills until their February billing. Members can learn more about how to control their demand and lower their overall electric costs by visiting [www.unitedpower.com/demand](http://www.unitedpower.com/demand). There are many helpful resources and videos to help you understand how the two components of your power are billed and how to control these costs.

## We May Have Money For You

United Power is attempting to issue unclaimed capital credit refunds to members who received electric service from the cooperative prior to 2016. If you were a member up to December 31, 2015, you may be eligible to receive a capital credit refund.

### How Can I Find Out If I Am Due a Refund?

To find out if you are due a refund, visit [www.unitedpower.com](http://www.unitedpower.com), click on 'My Cooperative' and look for the 'Capital Credits' page to view the entire list of unclaimed capital credit accounts.

Lists will also be posted in the lobbies of offices in Brighton, Fort Lupton, Carbon Valley and Coal Creek Canyon. Please visit [www.unitedpower.com/contact-us](http://www.unitedpower.com/contact-us) for office hours and addresses.

**Forms must be received by United Power by May 1, 2020.**

### Help us Find United Power Members

Do you have a relative or know of a neighbor who moved away in 2015 or earlier? They may be due a refund.

**A list of members who are due a refund is posted at [www.unitedpower.com](http://www.unitedpower.com).**

## ENERGY SAVERS

### Lower Water Heating Temperature and Save.

Turn down the temperature of your water heater to the warm setting (120°F). You'll not only save energy, you'll avoid scalding your hands.

## Payment Kiosk Locations

### Coal Creek Office

5 Gross Dam Road, Golden, CO

**Kiosk Hours:** Mon - Fri, 7:30 a.m. - 4:00 p.m.

### Carbon Valley Service Center

9586 E I-25 Frontage Road, Longmont, CO

**Kiosk Hours:** Mon - Fri, 8:00 a.m. - 4:30 p.m.

## New Payment Kiosks

United Power has placed payment kiosks at two office locations this year. These easy-to-use and hassle-free kiosks allow members to make payments in the lobby of our Carbon Valley and Coal Creek office locations. Our newest kiosk at the Carbon Valley Service Center was made available to members December 2.

To make a payment at one of these kiosks, bring your United Power account number and a form of payment. Payment kiosks accept cash, credit card or check payments. Cash and credit card payments made using a kiosk are applied to your account immediately, and accounts subject to disconnection are restored immediately upon payment.

### Set Up Your Fast Pass for Quick Access

To make your transactions faster, there is an option to set up a "Fast Pass," which will be prompted once you complete a successful transaction. You'll create a 4-digit PIN and receive a printed barcode.

Bring your barcode next time you visit a United Power payment kiosk, select "Fast Pass" and quickly find your account with the barcode/PIN or the phone number you used when setting up your Fast Pass.

Please be careful to enter the correct phone and account numbers when making a payment because your Fast Pass will reflect these numbers exactly as you input them.

## Annual Director Election Four Board Seats Up for Election

Four positions on United Power's eleven-member board are up for election at **the 2020 Annual Meeting which is scheduled for Wednesday, April 15, 2020** at Riverdale Regional Park & Fairgrounds in Brighton. One seat in the East, West, South and Mountain districts will be up for a three-year term.

To be eligible to become or remain a director, a person must be a United Power member and receive electric service from United Power at the member's primary residence in the district he or she represents. United Power's bylaws (available at [www.unitedpower.com](http://www.unitedpower.com), any of our offices, or through mail) provide in-depth information on director districts, qualifications, terms, elections, meetings and officers.

Each member's district is printed on their United Power statement. Nominations by written petition must state nominee's name and district, be signed by 15 or more United Power members, and be filed with the board no less than 60 days prior to the Annual Meeting.

**The deadline for nominations by petition is 4 p.m. on Friday, February 14, 2020.**

Petitions are available at United Power's headquarters office in Brighton at 500 Cooperative Way. Additional information can be obtained by calling United Power's executive department at 303-659-0551 or by visiting our website at [www.unitedpower.com](http://www.unitedpower.com).

## NOTICE

NOTICE OF CHANGE IN THE TARIFFS OF UNITED POWER, INC.  
As published in the *Denver Post*: November 28<sup>th</sup>, 2019

You are hereby notified that UNITED POWER, INC. (United) proposes to make changes to several of its rate tariff schedules to become effective for energy usage on or after January 1, 2020 (billings issued after February 1, 2020). A cost of service study was updated and indicated an increase was necessary for several rate classes. There will be a rate increase to the Residential (R1) rate class of 1.5% and a 2% increase to the Residential Time of Use (RTD1) and Irrigation (IRR2) rate classes. The Residential (R1), Residential Time of Use (RTD1), Small Commercial (C1), Small Commercial Time of Use (CTD1), Irrigation (IRR2) and Small Industrial Primary (SIP1) will have an updated demand charge of \$1.50 per kW with a reduction in the energy charge per kWh. There will be a rate decrease of 2% to the Small Commercial Service (C1), Large Commercial Secondary Demand Service (ISD1), and the Large Industrial Primary Demand Service (IPD1). A new rate structure will be introduced, Residential On-Peak Demand Time-of-Use Service rate (RDP1). There will be a Franchise Fee rate for the addition of the municipality of Frederick. There will be updates to the voltage levels of the Industrial Service Substation or Transmission Service (ITD2 and ITD3). There will be additional Non-Metered Lighting rates for new LED street lights. There will be cost updates for Rendering Other Electric Service. There will be minor rate language updates throughout the rate sheets for consistency and removal of an outdated rate sheet for Load Management Incentive Credits.

The present and proposed tariff provisions are available for examination at the Coal Creek Branch Office, located at 5 Gross Dam Road, Golden, Colorado; the Ft. Lupton Branch office located at 1200 Dexter Street, Ft. Lupton, Colorado; the headquarters office located at 500 Cooperative Way, Brighton Colorado and the Carbon Valley Branch office at 9586 E. I-25 Frontage Road, Longmont, Colorado.

Anyone who desires to comment about the proposed changes shall file either an informal complaint or a formal complaint with United at 500 Cooperative Way, Brighton, Colorado 80603 at least 10 days before the proposed effective date.

An informal complaint shall be in writing and shall contain such facts and other information to adequately state the reason(s) for the complaint. An informal complaint shall be considered by United, in regard to the proposed tariff changes, but will not require that a hearing be held.

Anyone who desires a hearing must file a specific and formal complaint to the proposed changes and a request for hearing at least 10 days before the proposed effective date. A formal complaint shall be in writing in the form prescribed by United's Regulations Governing Consumer Complaints and Related Matters. Upon request, a copy of said regulations is available from United.

United may hold a hearing to determine what changes will be authorized, regardless of complaints. If proper formal complaints and request for hearings are timely filed, the Board shall schedule a hearing. The changes ultimately authorized may or may not be the same as those proposed and may include changes different than those tariffs proposed or currently in effect. Anyone who desires to receive notice of hearings, if any, shall make a written request therefore to United, at the above address at least 10 days before the proposed effective date.

UNITED POWER, INC  
By: John D. Parker, Chief Executive Officer

# 2020

## ANNUAL MEETING & DIRECTOR ELECTION

### WEDNESDAY APRIL 15, 2020

**4:30 p.m.** Registration Opens  
**6:30 p.m.** Balloting Closes & Meeting Begins

**Riverdale Regional Park & Fairgrounds**  
9755 Henderson Road, Brighton, CO 80601

### BALLOTING DEADLINES

#### FEBRUARY 14, 2020

Director Nominations by Petition Deadline at 4 p.m.

#### APRIL 13, 2020

Mail-in Ballots must arrive at the P.O. Box by 6 a.m.

#### APRIL 15, 2020

Ballot Drop-Boxes at offices close at 2 p.m.

#### APRIL 15, 2020

Ballot Drop Box Open from 12–4 p.m. at the Riverdale Regional Park & Fairgrounds

### CANDIDATE FORUMS

Attend a Meet the Candidate Forum to learn more about each of the candidates vying to serve on the Board of Directors. The following events are free to members. Light refreshments will be served. RSVPs are not required.

#### THURSDAY, MARCH 19, 2020 | 6:30 p.m.

Carbon Valley Service Center  
9586 E I-25 Frontage Road, Longmont, CO 80504

#### FRIDAY, MARCH 20, 2020 | 7:30 a.m.

Coal Creek Canyon Community Center  
3158 Highway 72, Golden, CO 80403

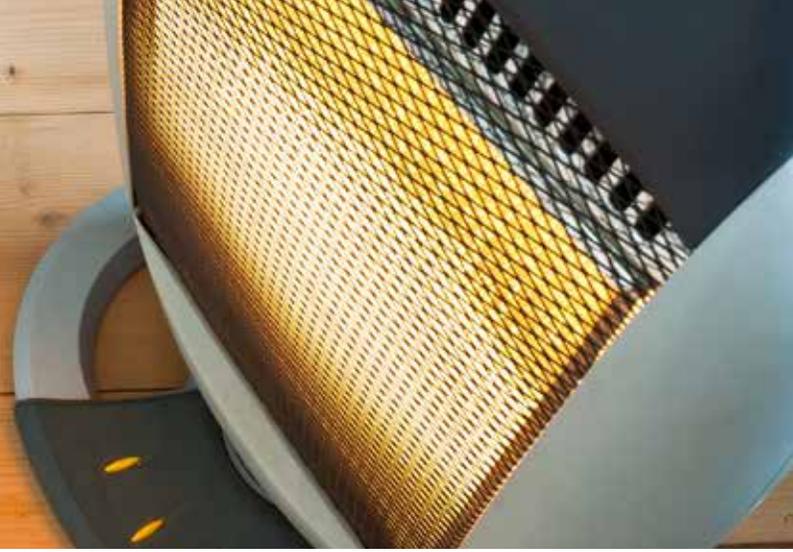

#### MONDAY, MARCH 23, 2020 | 6:30 p.m.

Riverdale Regional Park  
Rendezvous Room, located in Waymire Dome  
9755 Henderson Road, Brighton, CO 80601

#### TUESDAY, MARCH 24, 2020 | 7:30 a.m.

Fort Lupton Recreation Center  
Multi-Purpose Room 3  
203 S. Harrison Ave, Fort Lupton, CO 80621

Dates and locations may be subject to change.

## Careful with Space Heaters this Winter

When used safely and properly, portable space heaters provide a nice relief from the frigid chills of winter temperatures, which can often invade poorly insulated or ventilated rooms in older homes. Although space heaters are safe to use indoors because they don't require combustion, they still pose burn and fire hazards and should be used with caution.

Before operating, review the manufacturer's instructions, including warning labels. Space heaters may seem like simple, easy to use electronics, but each brand and version has its own unique quirks and features. It's better to be safe than sorry. After reviewing the instructions, inspect the space heater for cracks or broken plugs.

Next, be sure to place the heater in a safe location. They should be located at least three feet away from anything that can burn, such as

clothing and other fabrics, papers, rugs, etc. Do not place space heaters on furniture, such as chairs or tables. Place heaters on a firm, flat location on the ground away from heavily trafficked areas.

Space heaters place a heavy load on an outlet. For this reason, do not plug any other electrical devices into the same outlet. Extension cords or power strips could also overheat and result in a fire, so plug the heater directly into the wall outlet.

Most importantly, never leave space heaters unattended. Turn it off before you leave a room or go to sleep, and don't let animals or children play too close to the heater. When you're done using the space heater, always unplug it and store it safely.

**Space heaters can cause some shock when bills arrive. Read Page 7 to be fully aware of the costs to operate a space heater.**

## United for the Cure

October is nationally recognized as Breast Cancer Awareness Month, an annual campaign to increase awareness and rally people to help fund research to find a cure for the disease.

This October, United Power joined the ongoing battle to find a cure through an employee-led effort to support colleagues, raise funds and create awareness. The idea began to spread after co-op linemen asked permission to wear pink hard hats throughout the month, and evolved into a company-wide engagement effort.

"It's exciting that this movement began internally by our linemen," said Community Outreach Specialist Julie Stewart. "It's even more exciting to see the support from the rest of our employees. As a co-op, caring for our communities is a core part of who we are, and I think this demonstrates how much they care."

The cooperative issued linemen pink hard hats to wear on the job throughout the month of October, and employees received pink "United for the Cure" shirts. Employees were encouraged to wear their shirts every Thursday during the month.

To raise funds for breast cancer treatment and support, internal departments donated themed silent auction baskets. The silent auction raised \$5,000. The check was presented to the Platte Valley Medical Center Foundation at an employee meeting in November.

"The employee engagement and support we witnessed was more than we could have hoped for," said Member Engagement Officer Meghan Dewey. "This was a heartwarming suggestion from employees, who all helped contribute in a big way."

Breast cancer impacts hundreds of thousands of families every year. This year alone, approximately 270,000 new cases of breast cancer are expected to be diagnosed in women in the United States, not including non-invasive forms. It is the most common form of cancer diagnosed in women aside from skin cancer.

You can continue to help the fight locally by donating to the PVMC Foundation, which supports critical patient programs at Platte Valley Medical Center.

### Sambal Chicken Skewers

- 1/2 cup (packed) light brown sugar
- 1/2 cup unseasoned rice vinegar
- 1/3 cup hot chili paste
- 1/4 cup fish sauce
- 1/4 cup Sriracha
- 2 tsp peeled and finely grated ginger
- 1 1/2 lb boneless chicken thigh
- 8 bamboo skewers, soaked 1 hour

Prepare grill for medium-high heat. Whisk brown sugar, vinegar, chili paste, fish sauce, Sriracha and ginger in a large bowl. Add chicken, cut into 2 in. pieces, and toss to coat. Remove chicken and thread 4-5 pieces onto each skewer.

Transfer leftover marinade to a small saucepan. Bring to a boil, reduce heat and simmer until reduced by half (about 1 cup), 7-10 minutes.

Grill chicken, turning and basting often with reduced marinade until cooked through, 8-10 minutes.

# 2020 Residential Rates

## Standard Residential Rate (R1)

This is the default rate for residential members. Includes energy (kWh) and anytime demand (kW) charge with no time of day restrictions.

2019 Rate		Proposed 2020 Rate	
Energy (per kWh)	\$0.1015	Energy (per kWh)	\$0.0995
Demand (per kW) <i>Highest anytime demand</i>	\$1.00	Demand (per kW) <i>Highest anytime demand</i>	\$1.50
Fixed Charge	\$19.00	Fixed Charge	\$19.00

**2020 Change: Average monthly increase is \$1.58**

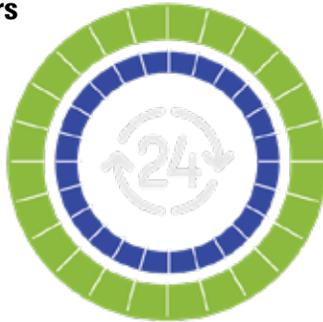

### Standard Residential Hours

#### ENERGY

Flat energy rate 24 hours per day.

#### DEMAND

Highest 15-minute interval reached *ANYTIME* of day. Billed at the single highest interval over the billing cycle.

## Smart Choice Rate (RD1)

The Smart Choice rate is beneficial to members who use a lot of energy (kWh) and can shift their demand (kW) away from on-peak hours of 2-10 p.m.

2019 Rate		Proposed 2020 Rate	
Energy (per kWh)	\$0.0430	<b>No Change</b>	
Grid Access Demand (per kW) <i>Highest anytime demand</i>	\$3.44		
On-Peak Demand (per kW) <i>Highest demand during peak hours (2-10 p.m.)</i>	\$6.81		
Fixed Charge	\$19.00		

**2020 Change: No Change**

### Smart Choice Hours

#### ENERGY

Flat energy rate 24 hours per day.

#### GRID ACCESS DEMAND

Highest 15-minute interval reached *ANYTIME* of day. Billed at the single highest interval over the billing cycle.

#### ON-PEAK DEMAND

Highest 15-minute interval during on-peak hours of 2-10 p.m. Sundays and major holidays\* are considered off-peak demand periods.

## Residential Time of Day Rate (RTD1)

The Time of Day rate offers a reduced off-peak energy charge to shift energy away from on-peak hours. Includes anytime demand (kW) charge.

2019 Rate		Proposed 2020 Rate	
On-Peak Energy (per kWh)	\$0.1540	On-Peak Energy (per kWh)	\$0.1540
Off-Peak Energy (per kWh)	\$0.0539	Off-Peak Energy (per kWh)	\$0.0525
Demand (per kW) <i>Highest anytime demand</i>	\$1.00	Demand (per kW) <i>Highest anytime demand</i>	\$1.50
Fixed Charge	\$19.00	Fixed Charge	\$19.00

**2020 Change: Average monthly increase is \$3.23**

### Time of Day Hours

#### ON-PEAK ENERGY

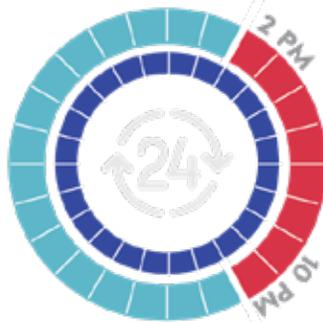

2 p.m. – 10 p.m.,  
Monday – Saturday

#### OFF-PEAK ENERGY

10 p.m. – 2 p.m.,  
Monday – Saturday,  
All day Sunday and major  
holidays.\*

#### DEMAND

Demand does NOT take a day off. Demand billed at highest 15-minute interval *ANYTIME* during the day and can occur during on-peak or off-peak periods on any day of the week (including holidays).

## NEW Residential Peak Time of Day Rate (RDP1)

The Peak Time of Day rate increases the off-peak savings by charging demand only for usage during the on-peak periods of 2 - 10 p.m.

2019 Rate	Proposed 2020 Rate	
<b>N/A</b>	On-Peak Energy (per kWh)	\$0.1432
	Off-Peak Energy (per kWh)	\$0.0552
	On-Peak Demand (per kW) <i>Highest demand during peak hours (2-10 p.m.)</i>	\$2.00
	Fixed Charge	\$19.00

**2020: New Time of Day energy rates with on-peak only demand**

### Peak Time of Day Hours

#### ON-PEAK ENERGY

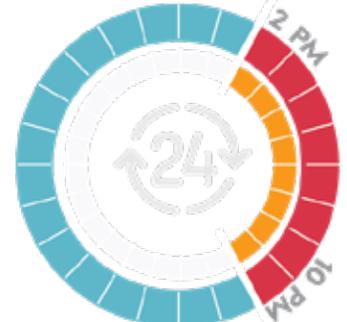

2 p.m. – 10 p.m.,  
Monday – Saturday

#### OFF-PEAK ENERGY

10 p.m. – 2 p.m.,  
Monday – Saturday,  
All day Sunday and major  
holidays.\*

#### ON-PEAK DEMAND

Highest 15-minute interval during on-peak hours of 2-10 p.m. Sundays and major holidays\* are considered off-peak demand periods.

\*Off-peak major holidays: New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Christmas Day

# Space Heaters May Cause Sticker Shock

Winter weather has arrived just in time to greet us for the holidays, and that means the cold temperatures that accompany it have also arrived. Heating is our biggest energy consumer in the winter, and when you are able to do it efficiently, you'll notice savings on your bill.

Unfortunately, try as we might, some rooms in our homes just don't seem to stay as warm as others, whether that's a room away from the furnace in an older home or a large open room that just needs a little extra warmth in the winter.

A nice, cozy solution for providing some additional warmth in these rooms can be to use a portable space heater. However, the cost of using one of these heaters can add up quickly over the course of a few days if you're not careful.

Space heaters are big consumers of electricity, most commonly sold as either 750- or 1500-watt models at retailers like Home Depot or Lowe's.

Using your space heater for as little as two hours per day over the course of a month can end up costing you nearly \$10 extra on your monthly energy bill. The more hours your space heater is operating, the faster those extra charges add up.

Before you consider space heaters to solve your heating issues, try addressing some of these alternatives.

## Energy Efficient Alternatives

Some alternatives may be more costly initially, but will save you in the long term. Here are a few options:

- Search and seal. Cool air can find small cracks to get through. Sealing and caulking windows, doors and floors helps keep rooms free of cold air.
- Insulate. Upgrade your insulation or add to your existing insulation to trap more warm air in your home.
- Install storm windows. These provide an added layer of insulation, which helps retain more heat.

Space Heater Consumption Costs		
1500 Watt Space Heater		
Cost per hour	\$0.1492	
Duration	2 Hours	4 Hours
Cost per Day	\$0.2984	\$0.5968
Length of Time	1 Month (30 days)	1 Month (30 days)
Cost Over Time	<b>\$8.952*</b>	<b>\$17.90*</b>

\*This does not factor in the impact on your demand (kW) charges. Let's say you have set a demand of 5 kW (\$7.50) during the billing period. If you stay below that for the rest of the billing period your demand will charges will not increase beyond \$7.50. But, if you operate a 1,500-watt space heater while using the appliances that brought your demand to 5 kW, you could reach a new peak demand of 6.5 kW and increase your demand charge to \$9.75 for the billing period. Watch operating hours of space heaters and stagger your appliance use to save on your energy bill.

Figures based on 2020 standard residential rate.

# 2020 Youth Opportunities Available

All Applications Must Be Postmarked by January

## Scholarships

This year United Power will award 17 scholarships for a total of \$19,500 to students who are either served by the cooperative, or are dependents of members. The scholarships range in value from \$1,000 to \$2,000.

**Applications must be postmarked by January 31, 2020.**

## Youth Leadership Camp

Each summer, United Power selects youth to represent the cooperative for a week in the mountains near Steamboat Springs at the Cooperative Youth Leadership Camp, **July 11-16, 2020**. Interested students must complete an application, be 16 years of age or older and have a primary residence within United Power's service territory.

**Applications must be postmarked by January 31, 2020.**

## Washington D.C. Youth Tour

United Power is accepting applications for the Electric Cooperative Youth Tour to be held **June 18-25, 2020** in Washington, D.C. United Power will send three students to represent the cooperative on this all-expense paid trip to our nation's capital. United Power's Youth Tour is open to high school students 16 years of age or older whose primary residence is in United Power's service territory.

**Applications must be postmarked by January 19, 2020.**

Applications and more information for United Power's youth opportunities are available under the 'News & Community' tab at [www.unitedpower.com](http://www.unitedpower.com) or call Julie Stewart, Community Outreach Specialist, at 303-637-1334.
